

Why join the Climate Leaders Coalition?

The Climate Leaders Coalition was launched in July 2018 to promote business leadership and collective action on the issue of climate change. Together our more than 120 signatories account for 60% of New Zealand's gross emissions, nearly a third of private sector GDP, and employ more than 170,000 New Zealanders. The Coalition also represents a unique opportunity for businesses to work together and learn from each other to reduce their emissions.

By joining the Coalition, you are sending a public signal that your organisation is committed to climate action and is meeting the commitments outlined in our pledge(s).

Joining the Coalition

- Any organisation can join the Coalition provided they can demonstrate they are meeting at least one of our pledges
- Each signatory is expected to contribute \$1,000+GST per annum to help pay for communications and administration support facilitated through the Sustainable Business Council
- Members also have the opportunity to join different workstreams, which involve contributions of both financial and staff resources
- The Sustainable Business Council acts as the backbone organisation for the Coalition providing advice, capability and administrative support, as part of its Climate Change programme.
